Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets-the substitute for calomel — are a mild but sure laxative, and their effect on the liver is est instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these ittle olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? mel sometimes plays havoc with the s. So do strong liquids. permanently disabled as a result of
the accident which occurred on board
United States ship Morris at Bristol,
Saturday. Seaman Mawson was

with the waves and Mr. Mawson's leg
at the ankle was caught in the coil

also injured. The Morris immediately speeded to Newport and the injured young man was rushed to the
naval hospital and received the most
careful attention of the naval doctors.

Patrick H. Kelley, who, like his father before him, serves as village blacksmith at Kelley's Four Corners, near Shannock and Kenyon, in the town of Richmond, is plaintiff in the suit against Laura Wilkins, wife of Harry Wilkins, now separated, in the case that occupied the attention of the superior court for Washington county, Judge Doran and a jury, in session at Westerly, Tuesday. Mr. Kelley sought to recover on a book account for amounts alleged overdue from Mrs. Wilkins, the account beginning in 1914. The aggregate amount claimed being \$100, and was for horse shoeing and blacksmith work. While the defendant did not deny the justice of the charges, claim was made that the bills ought to have been paid by Mr. Wilkins. The jury impanelled in the case was made up as follows, three of the jurors being Gardiners. J. Edwin Gardiner, Nelson D. Maine, John A. Stillman, Heney C. Perry of Westerlyman and the champion Ayrshire cow of the state record under these conditions. At the height of the tegt she produced 85 pounds or 40 quarts a day.
